

Positive Pay Guide

Service Administration

Service Administration is used to view or change the current state date. It is located within the Administration tab.

The Service Administration offers companies the option to change exception minimum amounts by account for Positive Pay and Reverse Positive Pay. The state date setting may also be changed for Full Account Recon and Positive Pay.

Example shown is Positive Pay administration; the process is similar for Full Account Recon and Reverse Positive Pay.

Description	Account	ABA/TRC	State Date Setting	Payee Exception Amount
1st pos pay account	12345678	791000123	60 days	\$100.00
2nd pos pay account	12340008	791000123	60 days	\$1000.00
3rd acct no payee pos pay	12340008	791000123	90 days	\$1500.00

Company Administration

Company Administrators will use Company Administration to manage access to banking services, accounts, and actions. A company admin user can set up additional users with specific roles and responsibilities.

Approvals Administration

The Company Administrator defines approval limits. Using the Approvals Administration page, the Company Administrator may apply an approval amount or number of required approvals. Business eBanking will not allow the approval amounts to exceed the setting defined by an organization in BST.

The Approvals Administration page is located under Administration within the Company Administration area.

Approvals Administration

Enter the required approvals for the selected services and click "Save changes."

CAUTION: Please check your approval settings before they are saved. You will not be able to transmit a request if the number of approvals required for a service is greater than the number of users authorized to approve requests for the service.

Approvals Required For Transactions

For transactions, enter an amount and indicate the required approvals if the request amount is less than or equal to or greater than the amount.

Service Name	Request Amount	Approvals If Less Or Equal	Approvals If Greater
Positive Pay Exception Maintenance	\$ 9,000.00	<input type="text" value="1"/>	<input type="text" value="2"/>
Reverse Positive Pay	\$ 0.00	<input type="text" value="1"/>	<input type="text" value="1"/>

Approvals Required For Setup

Service Name	Approvals Required
Administration	<input type="text" value="1"/>

Approvals Required For Issues/Decisions

Enter the number of approvals required for check issue entry and import, and decision import. Approvals for Positive Pay Exception Maintenance and Reverse Positive Pay must be equal.

Service Name	Approvals Required
Full Account Recon	<input type="text" value="2"/>
Positive Pay Exception Maintenance	<input type="text" value="2"/>
Positive Pay Issue Maintenance	<input type="text" value="2"/>
Reverse Positive Pay	<input type="text" value="2"/>

Once complete, click **Save Changes**. A confirmation message displays with a warning to carefully review. If approvals are not set up correctly, the company users will not be able to approve requests.

Manage Alerts

Convenient reminders are available for all company users in Business eBanking. Each company user may manage what and how alerts are received. The actions to Manage Alerts are located within the Communication area under the Administration tab. There are three different alert types: Account, Non-account, and Custom.

To add an alert, select the alert type and account. It is important to click the **Add** link associated with the alert type and then select your choice of delivery contact. Once complete, this company user is on their way to being well-informed.

Manage Alerts

Use this page to manage the alerts you receive and how you receive them. You can add new alerts, change existing alerts, or delete non-mandatory alerts. Enabled alerts are always delivered to your online banking mailbox. Available destinations depend upon the contact information you enter in [Personal Preferences](#).

Account Alerts **Non-account Alerts** **Custom Alerts**

Select the account for which you would like to manage alerts.

Issue Entry, Import, Update, and Approval

This section explores how a company user performs both a manual issue entry and an issue file import. In addition, this lesson will discuss how to create a file import definition. Identify with the company how to update and approve issue items. The company user will perform these actions in the same manner for both Positive Pay and Account Recon.

Enter Issue

A company user may manually enter a check issue for both Account Recon and Positive Pay. The example below outlines the tasks for Full Account Recon, but the process is the same if Positive Pay Issue Entry is selected.

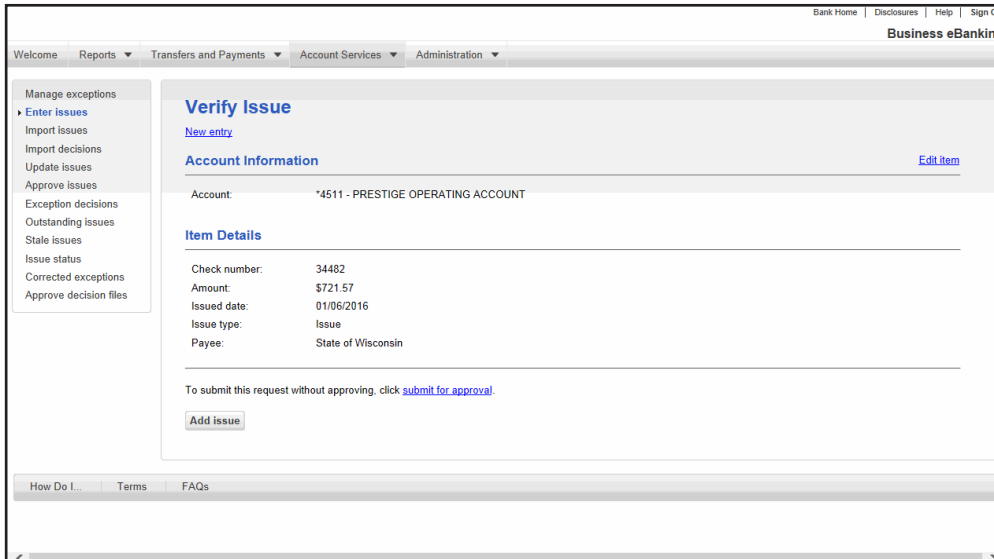

Select the account and complete the required fields. Select sequential entry to continue with the next check number. Verify content by clicking **Continue**.

The screenshot shows the 'Enter Issue' page in Business eBanking. The page has a navigation menu on the left with options like 'Manage exceptions', 'Enter issues', 'Import issues', etc. The main content area is titled 'Enter Issue' and contains the following sections:

- Account Information:** A dropdown menu for 'Account' is set to 'PRESTIGE OPERATING ACCOUNT - *4511'.
- Item Details:** Fields for 'Check number' (34482), 'Amount' (\$721.57), 'Issued date' (01 / 06 / 2016), 'Issue type' (Issue), and 'Payee' (State of Wisconsin). A note below the payee field says '(Only required if using payee matching)'. There is also a 'Continue' button at the bottom of this section.
- Sequential Entry:** A section with the text 'Enter next issue item with sequential serial number.' and a checkbox for 'Sequential entry' which is currently unchecked.

Review the issue items information. If a correction is required, use the **Edit Item** link for a single item. For sequential entries, click the item's **Check Number** link. The Entry-Edit page will display. Use this page to correct or delete the entry item.

To add or approve the issue item, use the action areas located on the bottom of the page. Depending on the company users entitlements, using the **Submit for Approval** link will move this issue forward for approval. If the entitlement is assigned with the approval role and is granted the Allow Approve entitlement for the account, the Add Issue button is available. The Add Issue action sends the check information with the user's approval. To approve a manual issue entries, use the Issue Approval function.

Import Issues

The Import Issues function provides access to import a check issue file, view the status of imported files, as well as the ability to add, edit, or delete a file import definition. This action is listed under both Full Account Recon and Positive Pay.

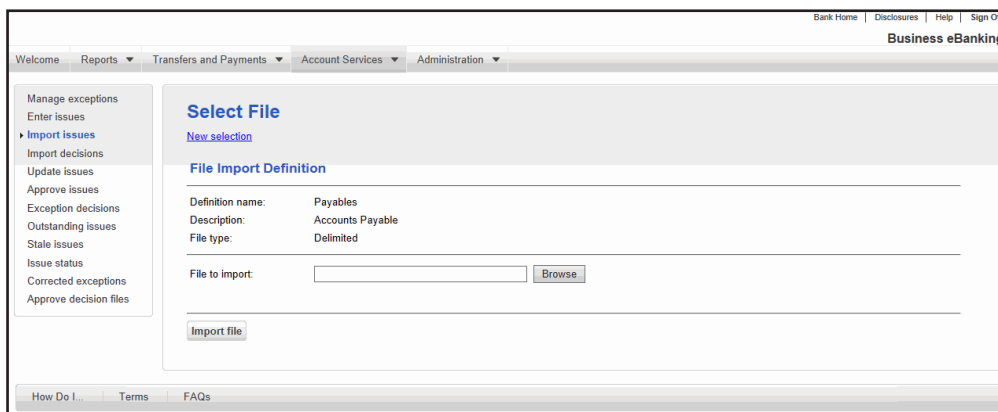

The file import process consists of selecting a file import definition and importing a check issue file. File import definitions outline the formats for the imported files.

NOTE: Format A and MICASH file definitions are not used by Integrated Positive Pay customers.

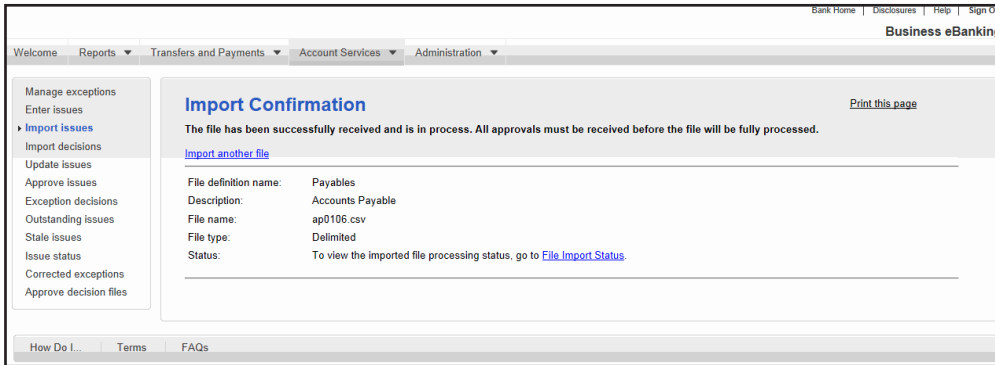

NOTE: The File Import Definitions selected by your organization are completed through the Exception and Decision Confirmation page in BST. File Import Definitions may also be used for FTP transmissions.

Locate the file using the **Browse** button. Then click **Import File**.

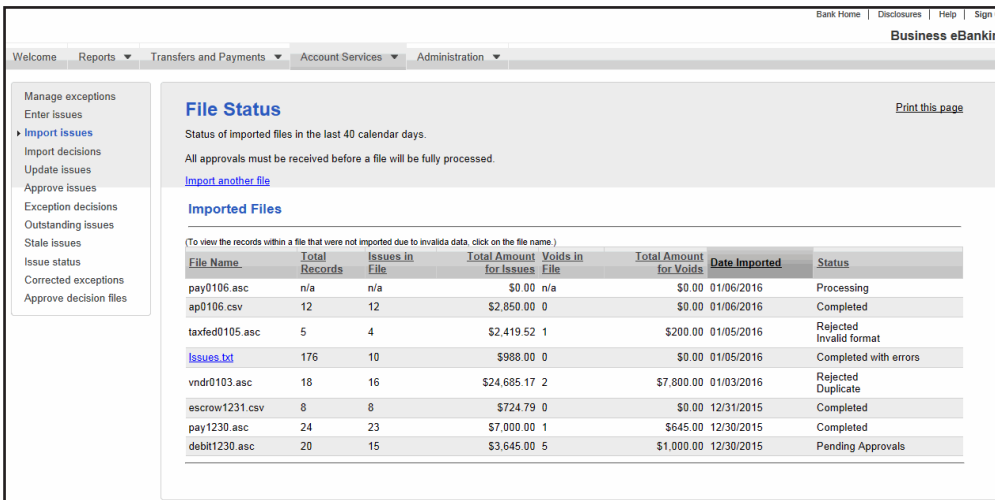

Continued...

Confirmation page appears.

File Import Status

Continuing from the previous action, it is necessary to verify the progress of the file imports. From the Confirmation page, click the **File Import Status** link.

NOTE: A company user may also access the Issue File Import Status link from the Issue File Import page.

Continued...

sunnationalbank.com

Continued...

Use the Status column to verify the progress of the file. It is important to review the status of each file to verify the transmission was successful. Listed are the following status results:

- **Completed:** The file imported successfully without issues.
- **Completed with Errors:** The file was imported, but some records in the file were not because of invalid data, format, etc.
- **Completed with Notes:** The file processed successfully with additional details provided for some records in the file. Examples: The record was successfully uploaded with a \$0.00 amount, or the issue was paid on X date.
- **Pending Approvals:** The file was imported and requires approval by another user or users in the company. Once all approvals are received for the file, it is validated and the status is updated.
- **Rejected:** The file was not imported because it had an incorrect file format.
- **Processing:** The file is in the process of being imported. This status is typically seen when importing large issue files.

File Import Definition

Your organization supplies the file definitions that are provided to the company. There is an option available to the company to create its own file import definitions. The File Import Definition could also be used for an FTP transmission.

File Import Definitions may be either delimited or fixed. A delimited file is a flat text file consisting of data items separated by a specific character. A fixed file is a text file consisting of data that have specific lengths and positions.

Continued...

sunnationalbank.com

File Import Definition Set up

The task to create a new file definition is performed by a company user. Use the **File Import Definitions** link, which is available on both the Positive Pay and Account Recon issue file import pages.

The example provided below is a file type of delimited.

The screenshot shows the 'Add Characteristics' form in the Business eBanking interface. The left sidebar contains a navigation menu with options like 'Manage exceptions', 'Enter issues', 'Import issues', 'Import decisions', 'Update issues', 'Approve issues', 'Exception decisions', 'Outstanding issues', 'State issues', 'Issue status', 'Corrected exceptions', and 'Approve decision files'. The main content area is titled 'Add Characteristics' and includes a link 'Import a file with an existing format'. Below this, there are sections for 'Description' and 'Characteristics'. The 'Description' section contains fields for 'Definition name' (Travel), 'Description' (Travel Invoices), 'File contents' (Issues), and 'File type' (Delimited). The 'Characteristics' section includes 'Field delimiter' (Comma (,)), 'Text qualifier' (Double quote (")), 'Amount format' (radio buttons for 'Decimal included (i.e. 123.00)' and 'Decimal not included (i.e. 123)', with 'Applied decimal format' set to 'Whole Dollar (123=123.00)'), and 'Date format' (MM/DD/YYYY). A 'Continue' button is at the bottom.

Move through the process by defining each section. (Characteristics, Default Field Values, and Field Properties.)

The screenshot shows the 'Add Default Field Values' form in the Business eBanking interface. The left sidebar is the same as in the previous screenshot. The main content area is titled 'Add Default Field Values' and includes a link 'Import a file with an existing format'. Below this, there are sections for 'Description', 'Characteristics', and 'Default Field Values (Optional)'. The 'Description' section contains fields for 'Definition name' (Travel), 'Description' (Travel Invoices), 'File contents' (Issues), and 'File type' (Delimited). The 'Characteristics' section includes 'Field delimiter' (Comma (,)), 'Text qualifier' (Double quote (")), 'Amount format' (radio buttons for 'Decimal included (i.e. 123.00)' and 'Decimal not included (i.e. 123)'), and 'Date format' (MM/DD/YYYY). The 'Default Field Values (Optional)' section includes a heading 'Enter default values that will be applied to all issues in your import file.' and fields for 'ABA/TRC' (081203790), 'Account' (*4511 - PRESTIGE OPERATING ACCOUNT), and 'Issue type'. An 'Edit characteristics' link is also present.

After clicking **Add File Definition**, a confirmation message is supplied. The new file definition is available immediately as an import option.

Update Issue Items

The Update Issues page is used to update or delete exception items or outstanding issue items. The Update Issue action is listed for both Account Recon and Positive Pay. The Update Issue Items Criteria page appears first to specify filter criteria in order to limit the number of items that are displayed.

Once the criteria selections have been determined, click **Search**.

Approve Issues

Approve Issues is a function that is used by both Account Recon and Positive Pay. The process is performed by company users to approve check issue entries as well as issue files. The number of approvals required is based on the set up decisions made within the following areas:

- **Business Service Tool:** Set up by the organization using the Bank and/or Company Set up Approvals pages.
- **Approvals Administration:** Determined by Company Admin users using the Approvals Administration page.

The Approve Issues selection page provides both check issues and issue files.

<input type="checkbox"/> *4512 - PRESTIGE PAYROLL ACCOUNT	34478	\$721.57	01/06/2016	Void	State of Wisconsin	1 of 2 received	Delete - pending approval

Issue Files Pending Approval

Select all • Deselect all (To view details for an issue file, click the file name.)

Filename	Total Records	Issues in File	Total Amount for Issues	Voids in File	Total Amount for Voids	Upload Date	Uploaded By	Approval Status
<input type="checkbox"/> Issues.txt	4	4	\$1,478.00	0	\$0.00	01/06/2016 01:13:19 PM (ET)	ADMIN	2 of 3 received Ready to transmit
<input type="checkbox"/> taxfed.txt	6	0	\$0.00	3	\$3,250.00	01/04/2016 01:13:19 PM (ET)	Mark01	1 of 2 received Ready to transmit
<input checked="" type="checkbox"/> debit1230.asc	2	2	\$950.00	0	\$0.00	12/30/2015 11:21:20 AM (ET)	Mark01	1 of 2 received Ready to transmit

NOTE: Issues and files without a check box have already been approved by the user.

Use the check number link to view approval history. Select the radio button to approve. Once complete, finalize by clicking **Approve**.

Exceptions Manager

Business eBanking offers two different Exceptions Manager pages. The availability of the Positive Pay and ACH Positive Pay Exceptions Manager are based on entitlements of companies and company users. The entitlements will determine whether one or both of the pages can be seen. Both pages provide both check and ACH exception decisioning and approvals.

The Positive Pay Exceptions Manager page begins with check exceptions where the ACH Positive Pay Exceptions Manager page lists ACH exceptions first. The ACH Exceptions Manager page also provides a detailed message about the processing of ACH exceptions.

This lesson will explore both Positive Pay Exceptions Manager as well as the details of ACH Positive Pay Exceptions Manager.

Positive Pay Manage Exceptions

Located under the Account Services tab is the Positive Pay Manage Exceptions link. This page is divided into sections so a company user may address the different aspects of the exceptions on one page. Each section can be accessed by the active links. The links and sections that are available will depend on the company approvals administration and entitlements.

Manage Exceptions

To make a decision on an exception, choose an applicable decision, check the appropriate exceptions, and then click "Continue".

Use the following links for easy access to specific sections of this page.

- [Check Exceptions Awaiting Approval](#)
- [Check Exceptions Awaiting Decision](#)
- [ACH Exceptions Awaiting Approval and/or Decision](#)

Check Exceptions Awaiting Approval [Return to top](#)

Approvals for decisions can be made from 01:00:00 PM to 03:00:00 PM.

Checks converted to ACH electronic payments appear with "ACH" beside the check number.

Select all • Deselect all • [Search exceptions](#)

Decision	Account	Check	Issued Date	Issued Amount	Amount Paid	Exception Reason	Payee	Approval Status
<input type="checkbox"/> Pay	*4511	34464	01/04/2016	\$18,818.34	\$16,818.34	Amount Mismatch	Able Construction	1 of 2 received Ready to transmit
<input checked="" type="checkbox"/> Pay	*4512	72349			\$7,153.78	No Issue Found		2 of 3 received Ready to transmit
Return - Payee	*4511	34478	01/05/2016	\$341.05	\$431.05	Amount Mismatch Payee Mismatch	State of Illinois	1 of 2 received Ready to transmit
Return - Not Authorized	*4512	365859 ACH	01/04/2016	\$650.00	\$650.00	No Issue Found		1 of 2 received Ready to transmit
Pay	*4511	62929			\$4,203.18	No Issue Found		1 of 2 received Ready to transmit

The first section, Check Exceptions Awaiting Approval, lists check exception items that have a decision assigned but are waiting for an approval.

It is important the company user is aware of the cutoff time by which approvals and decisions must be applied. Exceptions without a check box have already been approved by the company user.

The camera icon will display the image when clicked. The Check link allows the company user to view the exception details and approval history, or delete the decision. Exceptions can be deleted, but once deleted, the decision and approvals previously applied to the exception item are no longer applicable.

Select the check box to approve and click **Continue**, which is located on the bottom of the page. This action will move the approval forward.
